

Indian Institute of Management, Kozhikode, Training Report

As a part of nourishing our professional excellence we have received the opportunity to attend a training programme on “Managerial Excellence” by IIM, Kozhikode- one of the honored institution in India on 23rd and 24th of June 2017. The training Programme was really a praiseworthy experience. While compared to other training programmes it has its own unique standard of the prestigious institution. It was a distinctive experience to retrospect to our academic sessions. The sessions were in participatory nature and the faculty insisted solely on Fair GroupDiscussions (FGD’s). The sessions were dealt by Prof Priya Nair Rajeev and Dr Simi Joy who spend most of their time in amassing fresh hand information from Kudumbashree officials.

It was a very good chance to recollect our organizational potentials and also an arena to find out remedies for the complications in the system. Since the training consisted of many senior and experienced officials, it was really a learning practice for the first-born officials like us. To be honest, the knowledge that we gained was from our own officials and the faculty of IIM became the architect for this by employing their managerial tools. The two day session provided a hassle-free ambience for energizing and collecting information for outclassing in our management system. The training supported us to know more about our system and the techniques to attain managerial excellence through brain storming sessions arranged by the faculty.Nothing new has been contributed to our knowledge level apart from experiencing a high standard facilitation.

The facilities provided at IIM were fabulous and I am thankful to the Executive Director and Kudumbashree Mission for providing such an opportunity to us.
