

**REPORT ON THE TWO DAY TRAINING PROGRAMME AT INDIAN INSTITUTE OF
MANAGEMENT ,KOZHIKODE**

I had a concept of a management institute in my mind before attending the training. But the Indian Institute of Management ,Kozhikode was beyond all that I had been able to think of.It was a great experience to me and I would like to express my gratitude to State Mission and especially to honourable Executive Director.

The training was on Organisational skills and Managerial Excellence lead by Prof.Priya Nair Rajeev and Mrs.Simi Joy.The trainers were experts in the field and the programme was designed in such a way that we,the trainees,were able to gain the maximum.The learning process was through classes and through fruitful interactive sessions and mental exercises.The second day started with Yoga and it contributed in maintaining our energy level through out the day.One of the exercises was to visualize what the stage of Kudumbashree mission would be after the next 20 years.And another one was to how to turn this organization into more useful to the society,to emphasize the role of Kudumbashree in bringing about the change envisaged by the great founders of our nation, not just doing the menial jobs which are usually associated with Kudumbashree by the public mind.The ideas evolved in the discussions followed were brilliant ones as our trainers themselves admitted.In effect we got a better idea about where we stand today,where we would be tomorrow and what changes are required to be implemented if we want to reach the next level.

The campus spread across many acres of beautiful landscape and the the buildings were constructed in an eco-friendly way.The beautiful garden with trees and plants planted by eminent personalities like former President A.P.J Abdul Kalam and Chairmen of ISRO etc.The grand statue of Arjuna greets us with the words scripted below which is apt for an institution like this :‘Arise Arjuna’.The campus also boasts of rain water harvesting and they collect water for all their needs from their own campus.With excellent accommodation and food it would remain an evergreen memory in our minds .
