

IIM Kozhikode – Training report

First of all I would like to express my gratitude to my higher authorities especially the respected Executive Director, for arranging the two days training on Managerial Excellence at IIM Kozhikode, On 21st & 22nd July 2017. It was a distinctive experience to retrospect to our academic sessions. The sessions were mostly participatory nature. The presentation of Prof. Priya Nair Rajeev and Dr.Simi Joy were excellent.

I would also mention about, the facilities provided were very convenient and enjoyable. This training was helpful to understand and learn more about our present infrastructure and many possibilities that could be applied in our system. The brain storming activities were very interesting and amazing. ex; activity with straws - making tallest tower. IIM eco friendly building premisses helped us to understand about the nature and it's preservation including rain water harvesting.

In my point of view, when we are thinking about green protocol, it would be very appreciable, if they could avoid the plastic bottles for drinking purposes. Another thing I noticed that, inadequacy of time, instead of limiting to two days, three days would be more appropriate, if the module includes about project implementing strategy and norms to follow in training it will be beneficial to us. More over I think, it was a good chance and experience for them to collect inputs, activities and knowledge about our mission within a short span of time. It would be doubtless opinion that, Kudumbashree always performing as "versatile machine tool" so, these kind of trainings are definitely enhances more positive outcomes in our future works.
