

**My Learnings**

Learned about various Urban Schemes and Urban Reforms. Training increased my knowledge in convergence and improved my capacity in Implementing DAY-NULM more effectively.

**Suggestions for Kudumbashree**

When conducting future trainings pls include success stories related to various schemes.

**Feedback**

In my perspective Training was just average. Apart from one or two sessions, rest need more improvement. Sessions about HUDCO and Urbanisation was the most useful.

**Project Ideas**

Connecting various schemes and nhg activities are possible.
