Kudumbashree NRO is calling for proposals from prospective agencies/firms for Request for Proposal (RFP) on Documentation of PRI-CBO Convergence Project in five states of UP, Assam, Manipur, Mizoram and Tripura.

Kudumbashree NRO has projects running in various partner states based on best practices from Kerala under two domains of convergence between PRI-CBO and micro-enterprises. These projects are a result of combining experience with improved strategies to bring out community support systems, enable access to entitlements, local development and livelihood opportunities primarily focusing on micro-enterprises. The implementation of PRI-CBO Convergence project has been instrumental in creating a synergy between Panchayati Raj Institutions and Community Based Organisations. The project in partner states has helped CBO network to develop their identity in taking leadership roles in local governance, strengthening of village organisations and smoother access to entitlements and infrastructure facilities at the panchayat level. Looking at the diversity of States, through the project Kudumbashree NRO got an opportunity to customize its convergence model with respect to functioning of different local governance models and dynamics of the community at the ground level. The experience has been enriching and challenging at the same time. It has been realized that there is a need to capture diverse experiences of the community, local leaders, SRLMs, mentors and professionals working on ground to create an impact.

For more information on the project and the work conducted by Kudumbashree NRO, please refer to the website www.keralanro.org

Based on your expertise and experience we would like to invite prospective agencies/firms to submit technical and financial proposal in the prescribed format to carry out the assignment.
