To,
Mission Directors,
SULM All States/UTs

Subject: Skill Training in Plumbing sector-reg.

Sir/Madam,

I am directed to refer to letter of even No. dated 6th Jan-2020 regarding various activities to be undertaken by State Mission within stipulated timelines. In this connection, a consultation meeting was held on 14.01.2020 with State Mission Managers (Skills and livelihoods) to understand the possible challenges and steps to overcome them, for ensuring timely completion of this skill training program. The standard operating procedures for completion of the project are enclosed. Based on the discussion, following suggestions are to be implemented:

(i) SULMs need to provide letter in form of work order to IPSC by 25th Jan-2020.
(ii) Payment to IPSC will be processed at State level. First tranche will be released within 5 working days from the start of the batch, second tranche within 5 working days of certification and final tranche as per EST&P guideline.
(iii) No additional funds will be released from the Ministry for these trainings. Further, the achievements will be counted against the current FY targets allocated during AAP.
(iv) Location of training centres should be within reach of the beneficiary, irrespective of rural or urban periphery. Construction worker deployed on construction sites are eligible for training, both Fresh and RPL, under this scheme.
(v) Selection of ULBs will be as per the availability of training centre proposed by IPSC and SULM. In case if any training centre is being proposed by SULM, then availability of training centre has to be ensured by SULM within time.
(vi) For fresh training, any candidate who prefers to undertake training in the job roles of Plumbing sector up to NSQF level-4, S/he will be considered as an Urban Poor irrespective of their nativity, with the conditions that candidates need to qualify in pre-assessment. The questionnaire for pre-assessment would be developed by IPSC.

2. It is therefore, requested to co-ordinate with IPSC and initiate the training program of Plumbing sector.

Encl: As stated above

Yours Sincerely,

Pratibha Ahuja
