

Feedback of Training conducted by CED during 21st to 23rd May 2018

- **My Learning**
 - Become aware about the concept of urbanization, its history, scope etc.
 - Become familiar with the concept and practice of reform initiatives in urban settings in Indian context
 - Become aware about the activities of NABRD in rural settings
 - Learned about the water and sanitation in Urban setting
 - Learned the activities of Swatcha Bharatha Mission and its activities
 - Get awareness about the e-governance applications of SBI, Indian railway, Akshaya, etc.
 - Become aware about the Swachh Bharath Mission and its activities
 - Get an idea about the best practices in urban area development
- **Suggestions Kudumbashree**
 - The resource persons do not tried to correlate their topics with NULM. CED team commented that the training is meant for General Orientation on various Govt. Programmes and hence such a correlation is unnecessary. I suggest SMMU may interfere and modify the sessions in NULM context.
- **Feedback about the training**
 - The training agency tried to provide best ambiance for training including accommodation, food, training venue, expert resource persons, etc. But they failed to prepare an effective curriculum for the training.
- **Suggest a project**
 - Convergence of Swatchh Bharath Mission(SBM) , PMAY and NULM may be possible while relocating the street vendors to a new vending zone. Water and sanitation requirements of the vending zone may be linked with SBM, Housing requirements of the Street Vendors may be linked with PMAY of Life, NULM may interfere in other possible needs of the street vendors.
