

4. Building material production unit

Beneficiaries, who are interested with cement bricks production, will be identified across the state and will be provided training on production of cement bricks, cement window frames, cement door frames and interlocking blocks. The units once gets trained will be registered with respective Panchayats and the building materials produced by these units will be used for the construction activities of LSGDs as well as Government construction projects (LIFE Mission , PMAY) etc.

There are units functioning across the state and we are planning to establish 14 new Building material production units in current year. This project will be advantageous to **70 beneficiaries**. The training for these members will be provided through Government accredited agencies such as ,NIRMITI, COST FORD
