This was a nice Experience for me. ~~to~~ ~~in~~ ~~the~~ ~~before~~ attending this training I have a little stigma to face the cases and the problems coming to Snehi-tha. These different sessions especially the Gender aspects and legislation related sessions gave me a Confidence to face the cases. Also there is lot of staff they have practical Experiences that should also make me Confident in my profession.

the Gender
On the first day the State Programme Manager (gender) Mrs. Soya Thomas introduced the training session and directly goes to sessions. After the first session (Gender - Concept), I am a social work master's degree holder But still after my

Course Completion, I have some prejudices & stereotypes.
~~that~~ the Society because the influence of the patriarchal society in which I brought up. After this training (including all sessions) helps me to be clear in the concept of Gender. Mr. Roshan, He is a leading Expert in Gender and Mrs. Talaja, Asst Director Social Justice Dept, Mand. Jose, Expertise in TA all these... all these sessions are good in creating awareness not only for professional growth but also make me feel well in my personal life also.

The sessions handle all the topics relevant to the running of Snehi-tha. Now I am very excited to handle the cases and ~~and~~ But I think the legal part discussed need ~~and~~ little more time to Empower. The time limit after the sessions. I am sure meanwhile we can get it from different sources. In short I am very happy and now I am aware that I am in right way.
