

E – TENDER NOTICE

Competitive E-tenders are invited from reputed, eligible, FSSAI registered qualified firms/manufacturer that has prior experience in working with government organizations for the supply of premix. The tenders are required to be submitted online in a single bid system in the prescribed format.

Required Quantity:

The selected premix manufacturer to supply a maximum of 9600 kg of premix per month, in which the total required quantity of premix is 1,15,200kg per year. There are 242 nutrimix units under Kudumbashree Mission in Kerala and the premix manufacturer should supply the premix packets of 650gm each to every unit as per their requirement. The vendor has to provide the premix for a period of one-year ie, from April 2020 to April 2021.

Required Composition:

Dosage rate: 0.65% or 650gms/100kg. Each 650gm premix must have the following composition:

Required composition of premix to be used for the THR fortification project

Vitamins/ Minerals	Recommended Chemical Form	Overages	Assay	Final Level of Chemical form required in 650 gm premix
Calcium	Calcium (as Calcium Carbonate)	5	99%	588.63 gm
Iron	Iron (as Ferrous Sulphate Dried)	5	90%	11.82 gm
Zinc	Zinc (as Zinc Oxide)	5	99%	2.44 gm
Vitamin A	Vitamin A (as Vitamin A Palmitate 250 CWS)	10	0.25 mIU/g	2.17 gm
Thiamine	Vitamin B1 (as Thiamine Hydrochloride)	5	98.50%	0.22 gm
Riboflavin	Vitamin B2 (as Riboflavin)	5	98%	0.23 gm
Niaicn	Niacin(as Nicotinic Acid)	5	99%	3.14 gm
Vitamin B6	Vitamin B6 (as Pyridoxine Hydrochloride)	5	99%	0.42 gm
Vitamin C	Vitamin C (as Ascorbic Acid)	5	99%	15.71 gm
Folic acid	Folic Acid	10	88%	0.037 gm
Vitamin B12	Vitamin B12 (as Cyanocobalamin)	15	0.10%	0.34 gm

0.1 %)			
Silicon dioxide	---	---	3.25 gm
Dextrose Anhydrous	---	---	21.548 gm
			650 gm

It is required that, the packing of premix must be done in 650 gms packets / containers, appropriate for 1 batch of production of fortified Nutrimix.

Quality Control : The successful tenderer should deliver the premix prior to a month before each quarter. A complete certificate of analysis providing necessary details on levels of micronutrients, microbiological and physical purity, colour, odor etc from an external NABL accredited laboratory needs to be shared for each batch of the premix, one week in advance of the initiation of the delivery to the project location to Kudumbashree headquarters and ICDS headquarters of Kerala. Also, delivery of the premix cannot be effective unless the CoA gets approved and a go ahead is given by the Kudumbashree District Mission and ICDS headquarters.

Quality Assurance:

- a) The quality of multi-micronutrient premix shall be food grade standard in accordance with the standards as determined in the latest edition of Food Chemicals Codex (FCC) or other internally recognized standards such as US Pharmacopeia (USP) or British Pharmacopeia (BP). These international standards will provide specifications for chemical (including heavy metals and solvent residues), microbiological, physical purity, particle size and potency.
- b) Successful tenderer shall produce a complete certificate of analysis providing necessary details on the micronutrient levels, microbiological, colour, odor, physical purity etc from an NABL accredited laboratory recommended by Kudumbashree Mission and the test report of each batch of premix needs to be shared with Kudumbashree Mission well in advance of the initiation of the delivery to the project location.
- c) If 50 or more damaged packets are reported after the delivery, penalty will be imposed by Kudumbashree by deducting two to five times the total cost of defective items.

Packaging and Labelling Specifications: The premix shall be packed in hermetically sealed, clean and sound food grade packets / containers in such a way to protect against deterioration, loss in potency or damage due to other factors during its stated shelf life or intended use. The packaging should be adequately and clearly labelled in English and preferably in the regional language. The packaging size as mentioned earlier, must be done in 650gm tetralam bags; the 650 gm bags to be further packed in 5ply corrugated boxes

(a maximum of 35 packets can be placed per carton), appropriate for 1 batch (not exceeding 5 batches) of production of fortified Amrutham. The delivery schedule is fixed for two times in a year and the successful tenderer should deliver the respective quantity to all the 242 Nutrimix units in Kerala half yearly.

The total bid cost includes the costs of the product, packaging, transportation of the product (**inclusive the loading and unloading charges of the product at the specified location**), labour cost etc.

The label specification should broadly carry information such as :

- Intended use (premix for GoK FORTIFICATION PROJECT)
- Caution or warning statements
- Storage protocol & precautions
- Shelf life
- FSSAI license number
- Manufacturing details such as list of ingredients, net weight, date, location, Lot no., Batch no, address of manufacturer, veg logo.

Documents required to be submitted

A copy of the following documents should be enclosed with the tender offer:

- FSSAI Licence
- FSSAI import licence (in case it's imported) and local manufacturing licence of the company
- Copy of PAN No
- Copy of GSTIN No
- Allergen declaration
- Non-GMO certificate/declaration
- Copies of Purchase Order/Agreement/Work Order etc. in support of having the experience in supplying premix to Government organizations.
- List of major clients on letterhead.

Delivery schedule in a financial year

I st Delivery	Before 5 th April
II nd Delivery	Before 5 th October

Details of Premix Collection Centres

There will be a maximum of 4 collection centres in a district based on the geographical area. Centre wise requirement of premix will be intimated to the company along with the work order. A slight change in collection centres may occur as per the convenience of our women entrepreneurs. The company should deliver the product with utmost care to our collection centres in districts. The details of Collection Centres is given as Annexure 1.
