

## **My achievements since 2015 in NULM**

Myself joined NULM as City Mission Manager in Malappuram district mission/ Malappuram Municipality on 26/6/2015 while working in Ernakulam district mission as balasabha consultant. I hoped for a better chance to fulfil the vision of Kudumbashree in urban area. Initially we were given posting in the headquarters and the corporations of the district. And charge of all municipalities in a district. After few months I was transferred to Kottayam district Mission / Kottayam Municipality. After completing months, Thrikkakara Municipality of Ernakulam district became my headquarters and presently continuing in Thrikkakara Municipality as parent ULB and Aluva as additional charge. In between this I could able to assist Kattappana Municipality, Thodupuzha Municipality of Idukki district and Marad Municipality of Ernakulam in accomplishing the components of NULM.

NULM focuses on 7 components such as SMID, SEP, EST&P, SUSV, SUH, CB&T and Innovations. Initially there were separate managers for each components, such as CMM (Skills and Livelihoods) handle EST&P and SEP and CMM (SMID) handles SMID, SUSV, SUH & CB&T. Since we were posted in the initial stage, we have make our own plans to implement the scheme in our ULBs. We have to build a base in the municipalities to implement the project in a successful way and now it is realised that we were able to make it happen.

### **SMID**

Under the component of SMID, I could able to prepare a data collection format to collect the data of the existing NHGs in each CDS to enter in the MIS of NULM and initiated for the data collection of NHGs and MIS entry in Malappuram and Kottayam. Also make additions to the data collection format in Thrikkakara. Myself forwarded the application forms to Kattappana and Thodupuzha for data collection which helped in collecting the NHG data which is asked by MIS NULM. Also prepared a format for RF application and started the distribution for collecting the application of RF for SHG and ADS of Malappuram and Kottayam which is also beneficial for MIS entry and understanding the background of each NHGs. And used this application form in Thrikkakara, Thodupuzha and Kattappana and could able to distribute RF to 60 NHGs in Kottayam, 91 in Thrikkakara till date.

The main objective under SMID id the formation of SHGs and revival of existing SHGs. We were given targets for each and could achieve 100% or more. 245 NHGs formed in Thrikkakara and 84 in Aluva. Given Module 1 and

2 trainings for 100% SHGs in Thrikkakara and 98% SHGs in Aluva, revived 3 SHGs till date , supported to for 175 SHGs in Thrikkakara and claimed subsidy of Rs. 1487384/- and 93% SHG in Aluva AND CLAIMED INTEREST SUBSIDY OF Rs. 517770/- . Claimed 970500/- as RO fund in Thrikkakara and Rs. 356175/- Aluva, prepared claim in Kattappana and Thodupuzha and sensitized Marad CDS for claiming RO fund for their activities. Arrangements made for ADS office bearers traing in Kottayam, conducted CDS sentitisation programme in Thodupuzha etc.

In thrikkakara we could able to make sanction for City Livelihood Center. Another important achievement is that we could make able to find an office space in Malappuram, Kottayam , Thodupuzha and Kattappana. Conducted Nagarshree in Aluva and Thrikkakara Conduced Sparsham in Aluva and THrikkakara,Conducted SSP in Aluva. Applied for SEA of Aluva and Thrikkakara and received special mention from QCI team for presentation of documents of Aluva and Thrikkakara.ROs of each ULB started maintaining registers. Successfully completing MIS Entry which results in SPARK ranking.

## **Self Employment Programme**

### **As part of Self Employment Programme**
