

Field visit report for the month of December

Date :19.12.2017

1.MLA hostel canteen -Palayam, Trivandrum)

10 women entrepreneurs are working in the enterprise for last 10 months. Each member is earning a profit share of 10,000 per month. They have not received any financial support from Kudumbashree. They are willing to take catering orders.

Observation :The current position of the restaurant can cater for only a limited number of people (people within the quarters premise).This may affect the Kudumbashree units in terms of their capacity utilization and earning potential. To enable a wider public reach and thereby a successful and sustainable business for the units, we would need to take up orders from outside the MLA quarters. Restriction in entry of public may affect the viability of unit.

2. Santhwanam: Interacted with 2 santhwanam volunteers from Trivandrum. Each one of them are getting 3000 per day. They would like to get training on oil massage

3.Railway parking management : Currently 7 member group is assigned for managing vehicle parking in Thampanoor Railway station and they are earning an average income of Rs.100000/- per month.

4.Railway waiting hall Management: Currently 12 member group is managing the AC waiting hall in Thampanoor Railway station. They are getting an average income of Rs.1,50,000 per month. The registers and all the documents were maintained properly. The waiting hall is being kept neat and tidy.
